

# PROSTHETIC MANAGEMENT

*Ensuring the Most Appropriate and Effective Prosthetic for the Condition*

## PROSTHETIC MANAGEMENT PROGRAM

Our team of professionals assists injured workers in navigating the complex prosthetic process. We've constructed a network of reliable and well-known prosthetic manufacturers to ensure your client receives the most appropriate and most effective prosthetic solution and treatment plan for the unique condition.

We provide a good faith cost estimate of a prosthetic prior to receiving the evaluation and pricing from the vendor. After the vendor has recommended a prosthetic device and cost, our team will review and provide detailed feedback on the recommendation.

Additionally, our team will communicate the long-term needs of prosthetics with the injured worker. We will contact the provider to discuss and negotiate fair and appropriate pricing and eliminate hidden costs.

We strive to provide a seamless experience for the client, from the initial evaluation to the coordination of care, and the final rehabilitation services.

### EFFECTIVE TREATMENT

ensuring your client receives an appropriate prosthetic for the condition

### NEGOTIATIONS

negotiating treatment plans and pricing

### EXPERTISE & INTEGRITY

over 20 years of industry experience
